

How to Download Plans

1. You need the FREE MaxView Reader in order to download the plans.

To download the free reader, on the Bid Schedule detail page, under “Tools – Free Downloads”, click on “Download MaxView Reader – Free”.

How to Download Plans

3. On the next confirmation page, confirm that you would like to download the plans by clicking the “Download Plans” button.

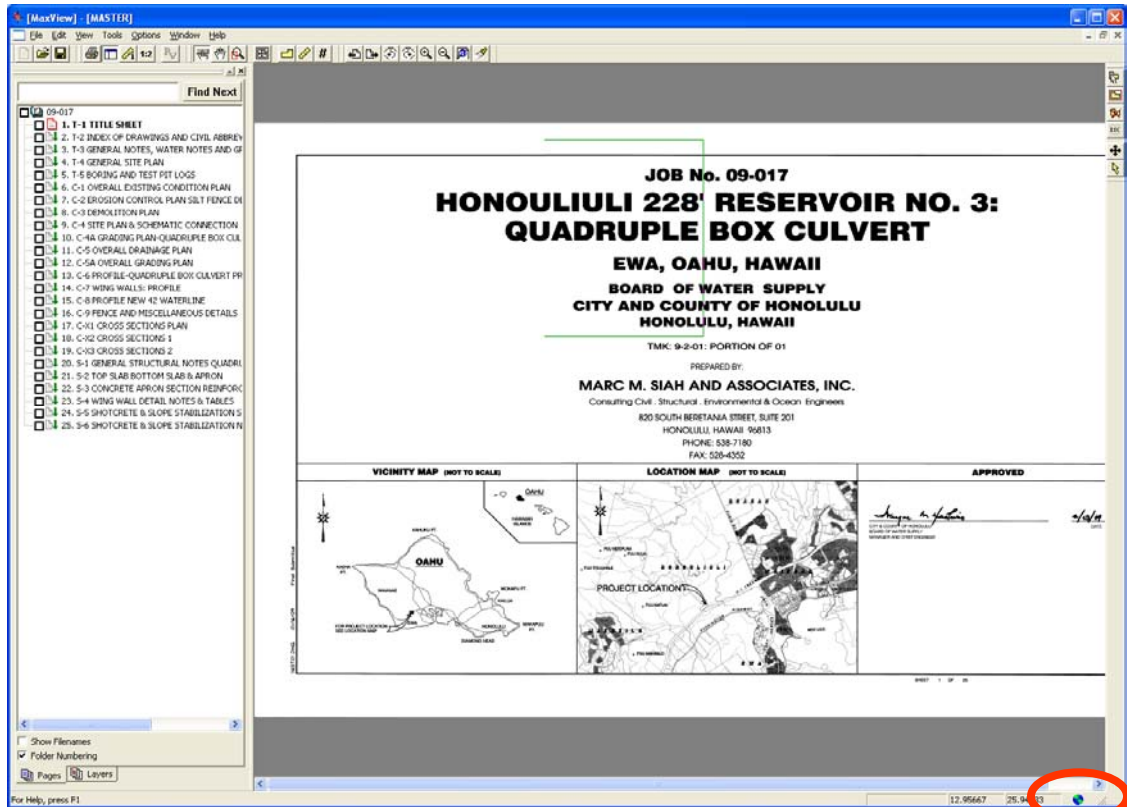

4. The following pop-up will be displayed asking you to open the MaxView file. Select “Open With MaxView MFC Application (default)” and press OK.

If this pop-up doesn't appear, verify that you have MaxView Reader installed (see above Step 1).

How to Download Plans

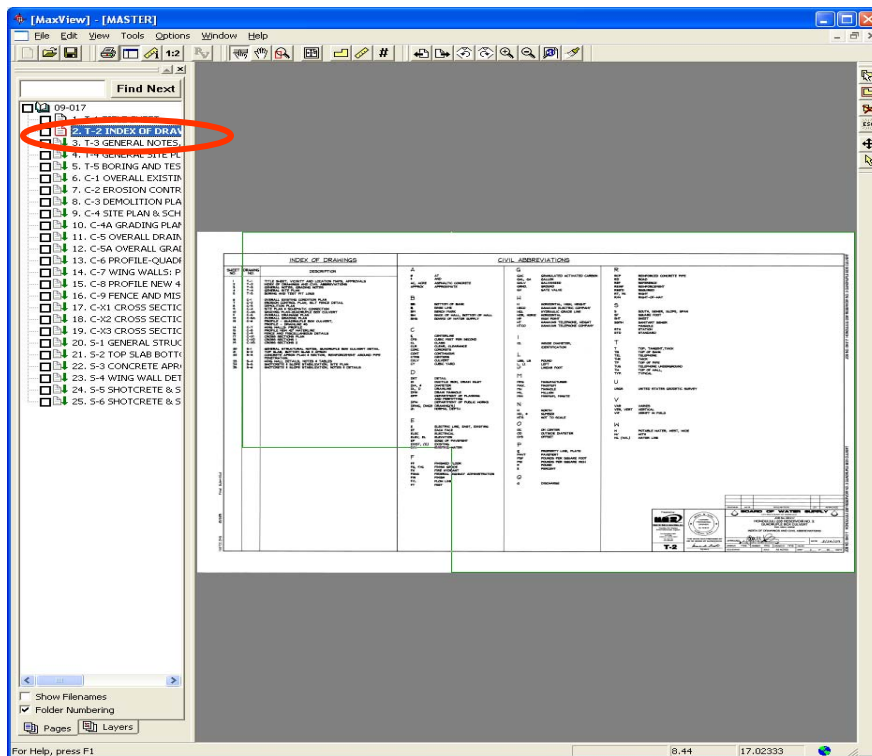

5. MaxView should open up with the plans listed on the left (called the Document Explorer).

6. Note that the icon of the Earth on the bottom right indicates that the plans are still on the web and haven't been downloaded yet.

How to Download Plans

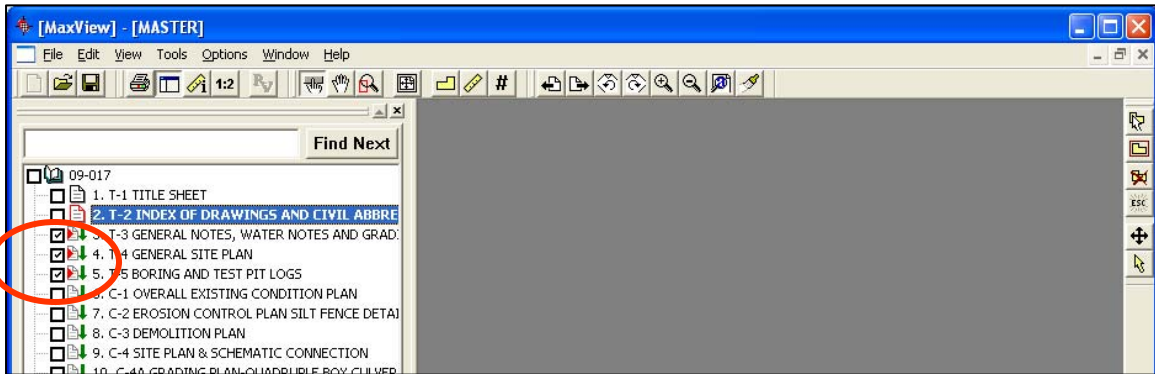

- To view one of the pages, double-click the name on the list on the left. The page will then be displayed on the right.

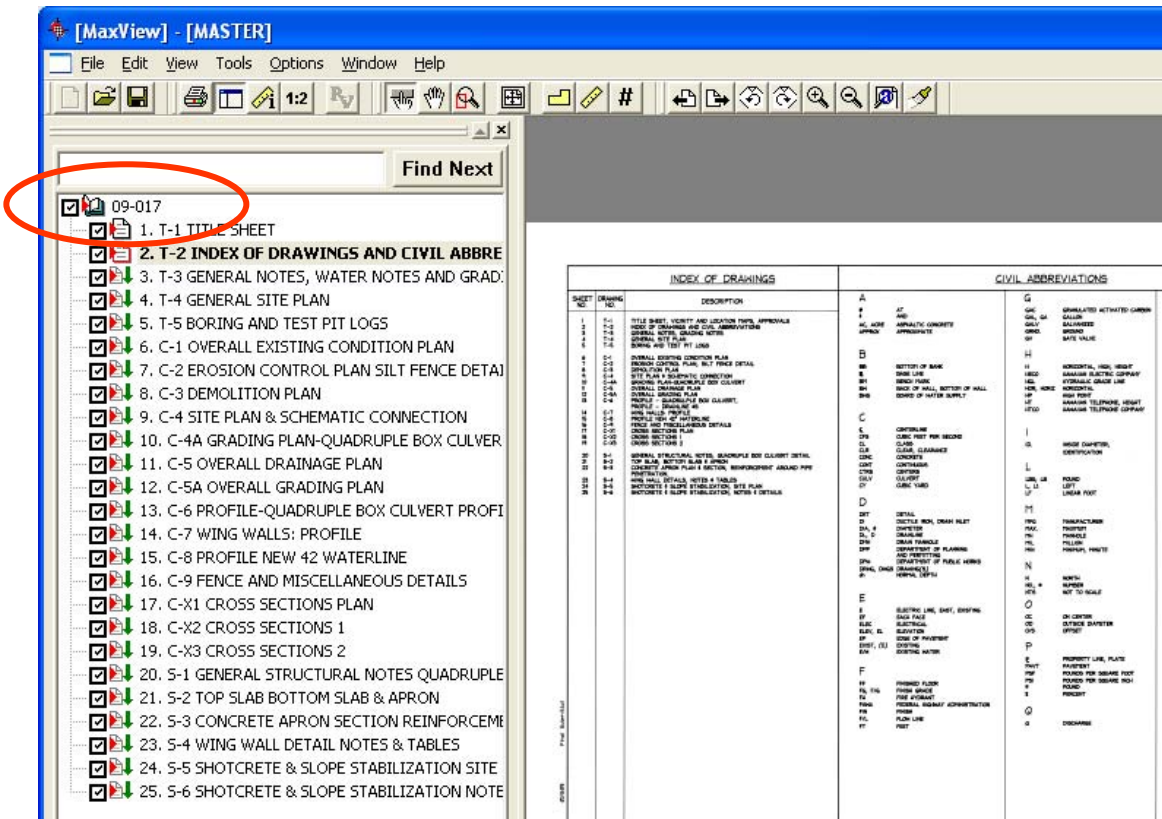

- This does not download the file to your computer, it just puts it in your cache.

How to Download Plans

- To download the actual plan file, click on the checkbox to the left of the name in the list of file names. Repeat this for each file you would like to download.

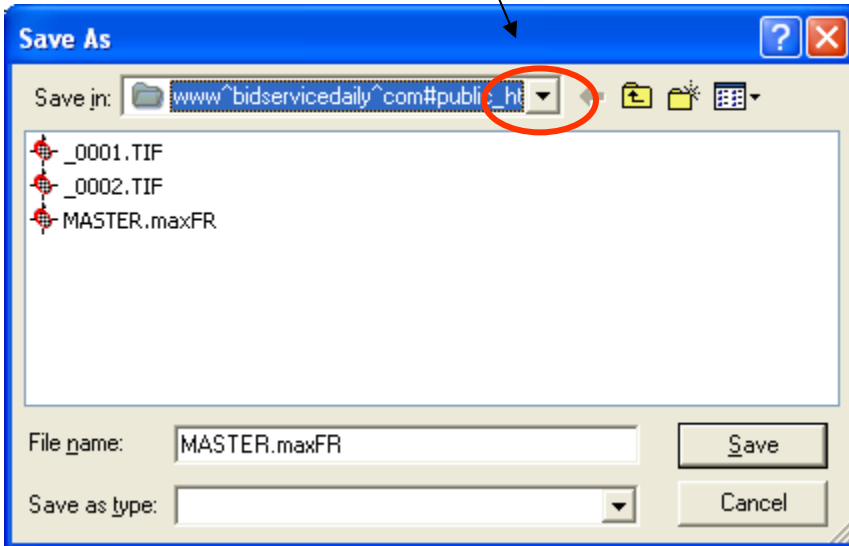

- To quickly select all files, click on the checkbox next to the project name on the very top of the list

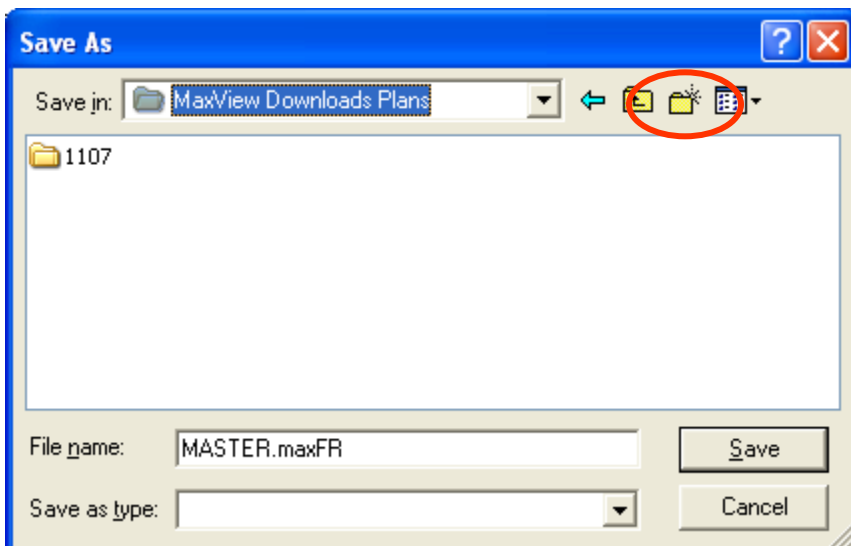

How to Download Plans

12. The following pop-up will appear asking you where you would like to save your plan files. Click the arrow to the right of the "Save In" box to find the directory on your computer where you would like to save the files.

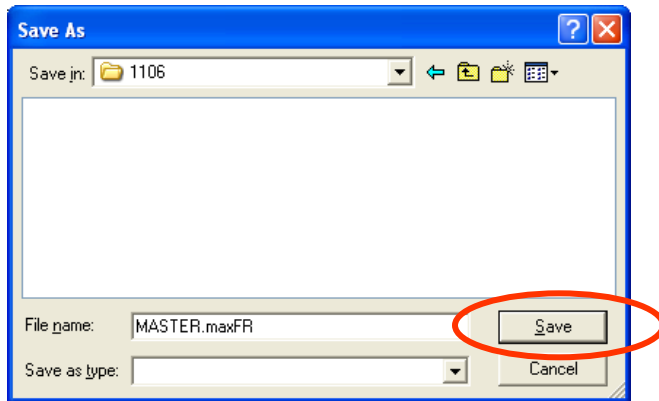

13. The create a new folder in the current directory, click on the folder icon with the star:

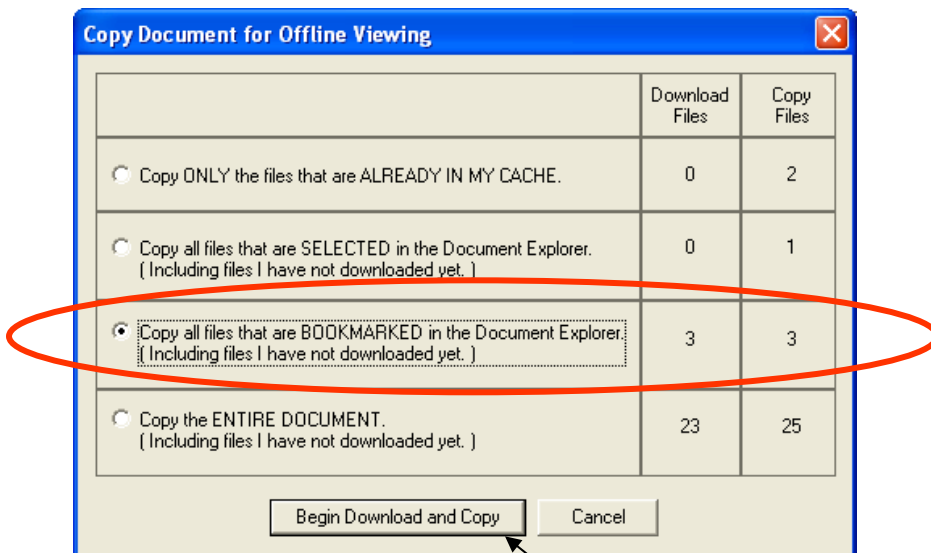

How to Download Plans

14. When you have the correct directory where you would like to save the files, click on the Save button.

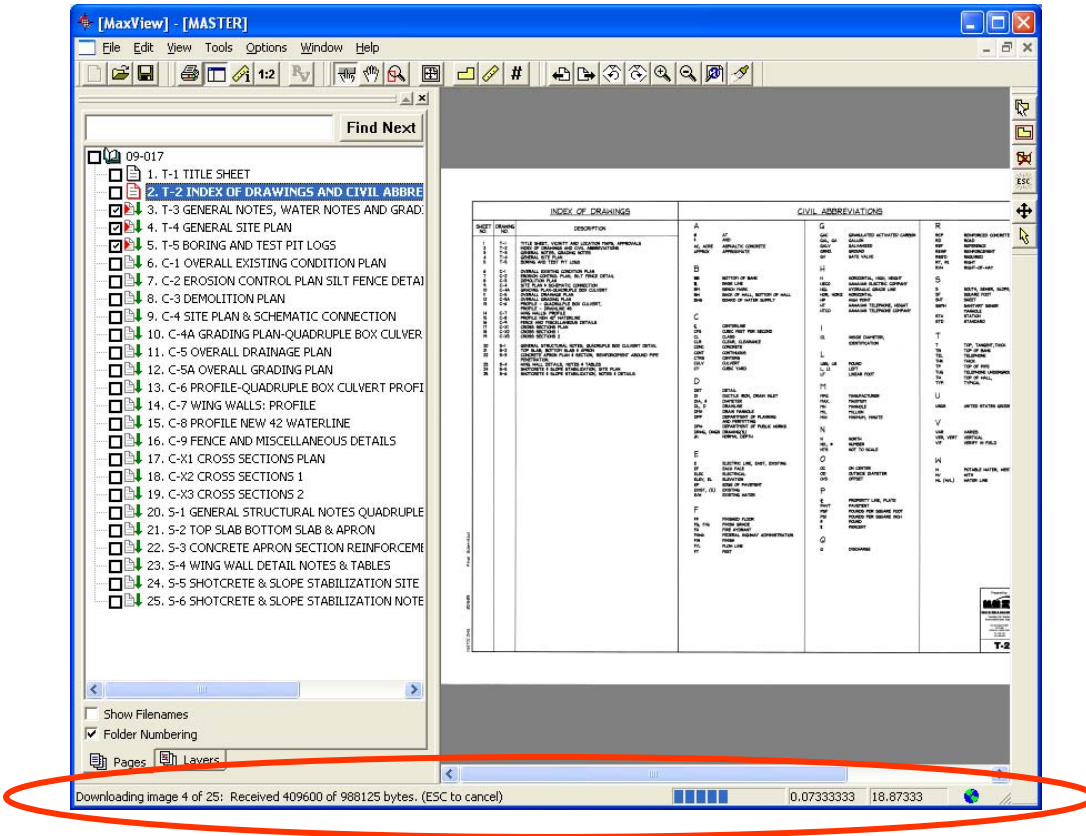

15. To save the files that you have checked, click on “Copy all the files that are BOOKMARKED in the Document Explorer. The number of files you are downloading will be displayed on the right hand columns.

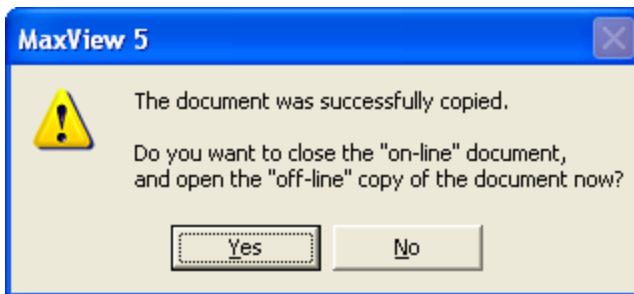

16. To begin the download, click on the “Begin Download and Copy” button.

How to Download Plans

17. The status of the download will be displayed on the bottom of the page.

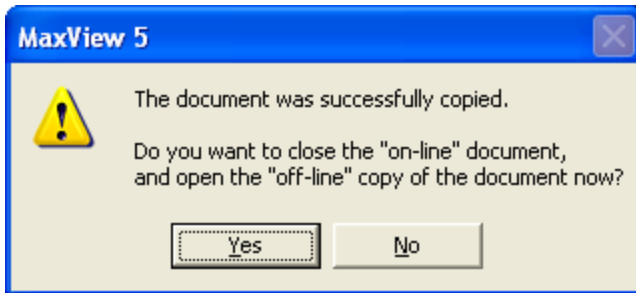

18. When the download is complete, a pop-up will be displayed indicating that the download was successful.

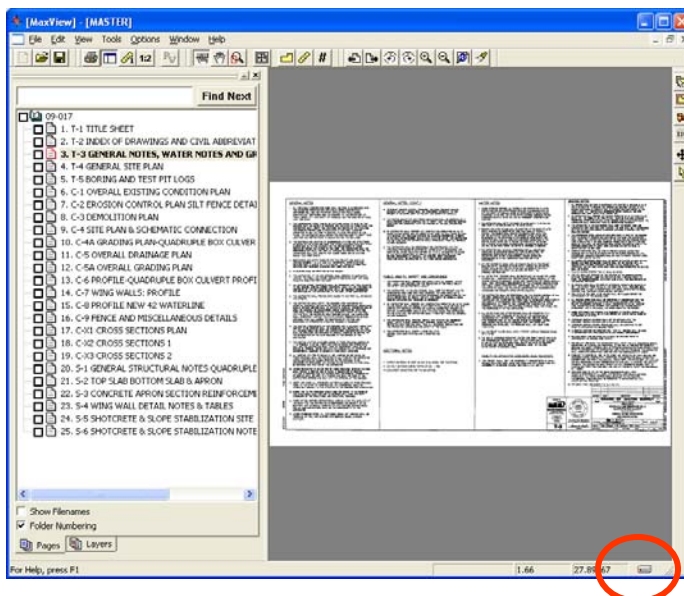

How to Download Plans

19. When the download is complete, a pop-up will be displayed indicating that the download was successful. The individual files are now in the directory you specified.

20. You have the option to switch to viewing the documents you downloaded ("off-line") or continue viewing the on-line documents. Select "Yes" to view the documents off-line (from your computer).
21. You can now see the downloaded files. Note that the icon on the bottom right Now shows a hard drive (replacing the earth icon). The hard-drive icon indicates That you are viewing files on your computer, NOT from the web.

How to Download Plans

CONGRATULATIONS

**You have now successfully
downloaded the plan files!**
